

IS THEIR CHAT ON TRACK? SUPPORTING CHILDREN'S SPEECH AND LITERACY DEVELOPMENT

MONDAY 26 FEBRUARY 2018

Liberty Gates
Speech Pathologist

EARLY YEARS WORKSHOP: 3-8 YEARS

Child Care, Preschool, Kindergarten, Early Learning Centres and Junior Primary School

This workshop is intended for all staff working with children in the age range 3-8 years, which includes Child Care Centres, Preschools, Kindergartens, Early Learning Centres and Junior Primary schools. The workshop explores how to enrich learning experiences for all children including those who have a disability, developmental delay or those who are experiencing difficulties in learning.

This workshop will include information and practical strategies about:

- Understanding the basics of speech and language development
- Where do things go wrong? How to tell when children might be having difficulties with speech or language
- Understanding how speech and language difficulties affect early literacy
- Examples and ideas using toys, games, books and other resources to help develop speech and language skills.

ABOUT THE PRESENTER

Liberty is the principal speech pathologist at Liberty Speech Pathology. She has a Bachelor of Speech Pathology (2001) from Flinders University and her speech pathology experience includes disability (Novita Children's Services) and education (Department of Education and Child Development) as well as more than ten years private practice.
